

Task Description

You are the **product manager at Accredian**, and you have been assigned the task of building a **student dashboard feature** that will help **students interact together** with their peers without relying on external communication networks like WhatsApp, LinkedIn, Telegram, etc.

Your job is to **build this feature**, decide the **functionalities** it will have, and how it will help us **eliminate the student's dependency on external communication networks**, and they only prefer Accredian's communication dashboard feature.

You have to build a plan for the said feature using the **template provided**, we are looking for creative and bright minds, who think outside the box and let their minds run wild, and have a deep love for innovation.

Hint- Imagine yourself as a customer and understand what will make you tick, and what are the main reasons why you would want to use **Accredian's communication feature** and not other **external communication networks**.
